Follow Experts' Advice — Plant This Fall

PLEASE NOTE — Fall is an ideal time to transplant roses in many sections of the country, however successful fall transplanting depends on the plants being thoroughly ripened by frosts before digging. For this reason we cannot make shipment of roses before the latter part of October. ALL PLANTS WILL BLOOM NEXT SUMMER.

"All-Purpose"

Everblooming

Rose Collection

Made up of eleven of the outstanding Roses of America. Each year we travel thousands of miles checking and observing the performance of different Roses. Varieties must have thoroughly proven themselves before being included in this group.

We believe this collection consisting of 11 Roses will give the average Rose grower complete satisfaction no matter in which state he lives. It is "All-Purpose" for the following reasons:

- FIRST—Because of the wide range of colors. Practically every color known in the Rose world is represented in this collection.
- SECOND—Because they are hardy in all sections of the country. Even in far northern climates they do well if given average winter protection.
- THIRD—Because they are offered at a price which all America can afford. No premium prices are asked for these splendid Roses.

Order Now For Fall

Many rose experts say that fall planted roses will give you much better plants and blooms next spring. Roses planted in the fall will not get any top growth during the late fall and winter months but they get off to a running start when the snows melt and early spring rains come.

FLORIBUNDA ROSES

WHAT ARE FLORIBUNDAS?

Floribundas are an entirely different and distinct group of Roses. They are extremely hardy, doing well under the most adverse conditions. They are the most prolific of bloomers. Floribundas start blooming very early in June and continue to produce constantly until freezing weather. Their blooms are like the Hybrid Teas in form. They grow vigorously with canes from 20 to 30 inches in height. Floribundas are one of the best plants we know of for bedding and for borders. Their foliage is attractive and not easily subject to disease, and their constant blooming habit makes them desirable wherever a long and colorful flowering season is needed.

2157 PINOCCHIO

Great clusters of bloom from June on until freezing weather. For cutting and floral arrangements these blooms are unequalled. Rich salmon. **\$1.50 each; 3 for \$3.90, ppd.**

2177 RED PINOCCHIO

Same features as Pinocchio but a bright red color. An excellent Rose. **\$1.50 each; 3 for \$3.90, postpaid.**

2160 FLORADORA

Extremely sturdy in growth and an abundant producer of brilliant coral-orange blooms. Not unusual for a flowering spray to have 8 or 10 open blooms and a number of yet unopened buds. Each plant bears literally hundreds of flowers during the season. **\$1.25 each; 3 for \$3.25; 6 for \$6.00, ppd.**

2315 CIRCUS

A constant panorama of color changes from spring until the last glorious bud is frozen in late fall. Gold, orange, buff and hints of cerise take playful turns at painting the perfect petals during the life of each long lasting bloom. Grows to 30 inches in height. Hardy, prolific and the most colorful thing in your garden. **2-yr., No. 1 plants, \$2.50 each; 3 for \$6.60; 12 for \$24.00, postpaid.**

2154 FASHION

The most sensational new Rose to be introduced in years. Here is a Rose with everything . . . lovely new color, coral suffused with gold; and an enticing "old rose" fragrance. Plants grow vigorously to medium height and produce an unusually great number of perfectly formed flowers from spring until late fall. Must be seen to be really appreciated.

**2-yr., No. 1 plants, \$2.00 each; 3 for \$5.25;
12 for \$21.00, postpaid.**

2321 SPARTAN

Amazingly beautiful new introduction which boasts blooms of Hybrid Tea Rose form and quality — and 35 to 40 petals! An exceptionally hardy and vigorous plant supports the scores of buds and blooms appearing from early in the season until frost. Richly shaded deep orange buds slowly open into large orange-red blooms, and hundreds of them are yours for cutting all through the summer months!

**2-yr., No. 1 plants, \$2.75 each; 3 for \$7.20;
12 for \$28.80, postpaid.**

2155 GOLDBLOCKS

**2-yr., No. 1 plants, \$1.75 each; 3 for \$4.65;
12 for \$18.60, postpaid.**

GRANDIFLORA ROSES

2322 MONTEZUMA

Magnificent Grandiflora boasting beautifully formed, 30-40 petaled blooms of colorful rose-salmon. Wonderful grower, producing long stems, and very abundant in flowering habit. Good foliage. Grows to 3 feet or more.
